

Application for the Honors Track within the Mathematics Major (BS)

Please complete this form and return it to the chair of the Undergraduate Committee.
Students should typically apply by the end of their junior year.

Requirements for graduating with Departmental Honors in Mathematics:

- Maintain an overall GPA of at least 3.0, and a GPA of at least 3.5 in mathematics courses.
 - Maintain a GPA of at least 3.3 in all Math courses numbered higher than 4000.
 - Complete an undergraduate research project under the supervision of a mathematics faculty advisor. A written report based on the project must be submitted for approval to the Undergraduate Committee of the Mathematics Department.
 - Present the results of the above research project at a conference or a seminar.
