MATHEMATICS GRADUATE STUDENT PRESENTATION

Eric Sullivan

MATHEMATICS ON THE ROCKS

Thursday, April 19th, 2007
12:00 pm – 12:30 pm
Engineering Room 201

What makes for a perfect day of rock climbing?
- A bit of fear
- A bit of luck
- Good weather
- A system of Differential Equations
- Newton's Method, and
- Trigonometry

Join Eric Sullivan for his graduate talk on the mathematics that keeps rock climbers and mountaineers safe on their adventurous outings.
